

The Validation Study of the Pediatric Narcolepsy Screening Questionnaire

A research survey for parents of children with narcolepsy or other sleep problems.

Has your child been diagnosed with narcolepsy? Or, have you taken your child to the doctor where the main reason for the visit was to address the child's sleepiness?

If so, you are invited to take a survey to help pediatricians detect narcolepsy in children.

The survey will take about 30 minutes to complete. You will receive a payment of \$25 for completing the survey.

By participating, you may help pediatricians identify the symptoms of narcolepsy in children and make the correct referrals to sleep specialists.

For more information, please email contact.na@proclinica.info or call 1-866-658-9749.

Your participation in this survey is voluntary. It will not affect your child's current treatment.

Your answers will be kept confidential, and will not be shared with your doctor. Your personal information will be protected. Your name will not be included on any reports or publications.

**Mapi, an Icon Plc. research company, is conducting the Pediatric Narcolepsy Screening Questionnaire on behalf of the study sponsor.*
